KHW Maschinenbau GmbH

UNI-V

Filling system vacuum -
gravitation for still beverages

Description

UNI-V - The filling system vacuum - gravitation for still beverages - up to 15 000 bottles/h for hot and cold sterilized fillings.

The UNI-V operation is not only a solo variation with all the common capping systems, but may be obtained as a duo or triple variant - as well as a linear or angle version triple-block with an integrated rinser.

Important details

- Aluminum screw cap (all other capping systems are also possible)
- clock or counterclock rotation possible
- Filling system vacuum - gravitation for still beverages equipped for PET bottles to be filled with water (other types of bottles are possible)
- Capacity of 2 000 - 15 000 for 0,5 litre bottles.
- Rinkessel version is CIP capable
- With tulip lifting - required for a secure filling of bottles
